

Incitements to mark!

Solving marking problems

TiCOM® MetalMarker

Marks in white with a super-fine line width of about 0.8 mm. Optimal for contrasting marking of metals with rolled, dark or slightly rusty surfaces. Also adheres to many other materials on which white marking is easier to read. The marking pen covers permanently, is light-resistant, dries quickly and can be removed easily with organic solvents such as cleaning benzol or also toluene.

Article no: 120.1
Article designation: **TiCOM MetalMarker**
white marking pen
Packaging: loose in boxes of 10
Length: 133 mm
Ø Shaft: 11 mm
Weight: 15 g
Packaging unit: 10 pieces

TiCOM® Robust hard-metal marker

The stable marker, in particular for larger, stronger markings in machine and steel construction. With its silver-coloured, powder-coated hexagonal shaft, the extra-strong hard-metal tip is firmly integrated, safety secured by the clip-on cap. The precisely ground needle (15 mm in length) can be re-ground without any problems.

Article designation: **TiCOM Robust hard-metal marker**
with clip-on protective cap
Packaging: in transparent cover
Length: 180 mm
Ø Shaft/needle: 8 mm \square / 3 mm
Weight: 72 g
Packaging unit: 10 pieces

TiCOM® Standard hard-metal marker

The favourably priced alternative for simple marking jobs. Light version with nickel-plated hexagonal shaft and clip-on cap for safe keeping. Hard-metal needle (13 mm in length) can be re-ground and is soldered into the shaft.

Article no: 210.1
Article designation: **TiCOM Standard hard-metal marker**
with clip-on protective cap
Packaging: loose in boxes of 20
Length: 150 mm
Ø Shaft/needle: 6 mm \square / 2,5 mm
Weight: 34 g
Packaging unit: 20 pieces

TiCOM® marking ink

Even the finest of marking lines can be recognised in high contrast and clearly, without any reflections. Spray the ink onto the metal. The uniform covering of the firmly adhering film dries within a very short period. After this, mark the metal as usual. The ink can be removed easily with customary solvents.

Article no: 240.1
Article designation: **TiCOM marking ink/spray**
Packaging: loose
Colour: blue
Contents: 300 ml
Weight: 490 g
Packaging unit: 6 pieces
